Dear Miss Walker:

The 1978-1979 Annual Plan for the Library Services and Contruction Act has been reviewed in accordance with the procedure of OMB Circular A-95, and I endorse the submission of the Plan with the recommendation that it be approved.

I have recently been involved in a Statewide Hypertension Task Force and participated in the development of a Resource Inventory. One of the resources mentioned for the Pee Dee Area was a County Library. The Library had developed special information and periodicals on hypertension, and had evidently had this information displayed in a special area. This is an excellent method for making available information on topics of special interests and needs of South Carolinians.

Please contact me if I can be of any assistance.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Elmer'.

Project IA. General Administration

SECTION C. DESCRIPTION OF PROJECT

The purpose of the project is to administer the Library Services and Construction Act in South Carolina efficiently, economically, and effectively in order to fulfill the goals and objectives of the long-range and annual programs. As the chief instrument for the planning and implementation of the total LSCA program, the General Administration project is directed toward the realization of the basic continuing goal of the program:

To provide comprehensive library services and resources to the people of South Carolina, giving every individual access to the informational resources of the State. (South Carolina Program for Library Development, 1978-1982, p. 4)

The project provides for the statewide planning and evaluation of library services and for administrative activities required for compliance with the provisions of the Library Services Act and Regulations. Major activities include, but are not limited to:

1. preparation and publication of:
 - a. the Basic State Plan
 - b. the long-range State Program for Library Development
 - c. the Annual Program
2. evaluation and reporting of LSCA programs
3. activities of the LSCA Advisory Council
4. management of budget and records
5. dissemination of information concerning LSCA programs
6. studies and surveys as needed to provide direction and/or evaluation of both the statewide and specific local programs
7. the services of consultants required for such activities
8. staff participation in LSCA training programs convened by the Office of Education, DHEW
9. negotiation of indirect cost rate

South Carolina State Library
1500 Senate Street
Columbia, South Carolina 29201
Fiscal Year 1979
Title I
Project IA. General Administration

State funds will cover most staff costs, including salaries of professional, bookkeeping, and secretarial personnel attributable to the activities of the project. LSCA will be used to cover costs of one bookkeeper, equipment, supplies, printing, travel, communication, and contractual services attributable to the project. Indirect costs claimed by the State are also attributable to General Administration.

Estimated expenditures for FY 79 include:

1. Salaries and Wages \$31,116

<u>Position</u>	<u>% of Time</u>	<u>Amount</u>
Librarian	15	\$ 4,077
Deputy Librarian	40	9,688
Business Manager	33-1/3	5,519
Accountant I	33-1/3	4,271
Clerk/Typist	100*	7,561

*1/4 of time of four FTE's

2. Travel 1,000

Staff	\$500
Advisory Council	500

3. Indirect costs 8,000

4. Other (supplies, printing, postage, communication, etc.) 2,000

Total \$42,116

The source of funding for the project in FY 79 will be:

<u>Federal</u>	<u>State</u>	<u>Total</u>
\$11,000*	\$31,116	\$42,116

*\$3,000 (est.) of this amount will be carried forward
for use in FY 80.

Activities of the General Administration Project will be monitored constantly by the State Librarian, Deputy Librarian, and/or Business Manager, assisted when needed by individual program supervisors. Monthly reports will be made on expenditures, and quarterly reviews will evaluate activities and progress in implementation.

South Carolina State Library

Columbia, South Carolina 29201
Fiscal Year 1979
Title I
Project IA. General Administration

The success of the project will be measured by:

1. approval of the State Library Board and LSCA Advisory Council
2. acceptance of the Basic State Plan, Annual Program, State Plan for Library Development, and annual reports by the LSCA Library Program Officer
3. the extent to which LSCA funds are allocated, obligated, and expended for approved purposes within the established time frame, and
4. the successful implementation of individual projects set up under the Annual Program.

Project IB. Library Interpretation

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

The purpose of the Library Interpretation Project is to interpret library service to the government and the public and to promote a climate of public opinion favorable to library development. It attempts to increase public understanding of library programs and awareness of services provided, thus building up the library by individuals and groups in the community.

The project prospectus sets forth seven objectives:

1. To encourage greater use of the State Library's facilities and resources by state government personnel.
2. To more fully inform the general public about existing public and state institutional library services and to encourage greater use of these library services by more and more people.
3. To stimulate public interest and create support for the constant improvement of public, college, special and state institutional library services and facilities.
4. To reach the non-library user plus specific groups such as visually and physically handicapped, urban and rural disadvantaged, and non-English speaking peoples with information about available library service.
5. To support programs of other state agencies and other groups which will strengthen "the reading experience" and offer the state's citizens continuing educational opportunities through library resources.
6. To support a program of interlibrary cooperation which will assure a more efficient utilization of all library resources in the state.
7. To create awareness in and offer guidance toward sound public relations programs for librarians, their staffs and their board members. (The South Carolina State Library. Library Interpretation Program: PROSPECTUS. July 1, 1978-June 30, 1979, p. 1.)

II. Relationship to Long Range Program

The project supports Goal VC of the Long-Range Program: To interpret library service to the government and the public and to promote a climate of opinion favorable to library development.

III. What the Project Expects to Accomplish

The Library Interpretation Project is aimed at strengthening the State Library and the public and institutional libraries of South Carolina. It supports both the state and LSCA programs. It is hoped through increasing the understanding of the role of the library in the life of today to make the library and its services an integral part of every community activity whether it be professional, business, educational, or recreational.

IV. Needs Assessment

In a population of two and one-half million, only about 30% of South Carolinians are regular library users. Many non-users are unaware either of library services generally or of potential benefits for them personally. At the same time, financial support for all South Carolina libraries is low. Limited resources do not permit them to reach out to all the unserved or to adequately serve present users. Both the public and officials responsible for funding need to be informed about the value of library services.

V. Who Is To Be Served

The entire population of the state will benefit to the degree that the project assists in the development of adequate library services to meet the needs of the people. By making state legislators and local officials aware of the educational, informational, and recreational value of libraries, a better level of support may be obtained. By making more people aware of library services, a greater proportion of the public is likely to avail themselves of those services.

VI. Activities To Be Used To Meet Objectives and Needs

The Library Interpretation Program is conducted by a firm of public relations specialists. An annual prospectus sets forth general objectives and projected activities, but the program is kept flexible in order to support current needs and changing emphasis. Complete plans for publicity and public relations are developed for all major State Library programs, for each LSCA project, and for appropriate public and institutional activities.

Title I
Project IB. Library Interpretation

From 1977 through 1979, the state conference and White House Conference on Library and Information Services will be the focus for publicity. Specific activities include: (1) news releases, (2) feature articles, (3) broadcast announcements, (4) interviews, (5) folders, brochures, and booklists, (6) exhibits, signs, posters, displays, and presentations, and (7) special printed materials. Media utilized include (1) newspapers, (2) radio, (3) television, (4) professional and corporate house organ publications, (5) national and regional media, and (6) statewide and regional meetings.

VII. When and Where Project Will Be Implemented

The Library Interpretation Project will be implemented in FY 79 at the South Carolina State Library.

VIII. Key Libraries and Other Libraries Involved

The South Carolina State Library and all public and institutional libraries in South Carolina.

IX. Estimated Cost of and Sources of Funding

The project is funded primarily from State Appropriations.

<u>Federal</u>	<u>State</u>	<u>Total</u>
\$2,000	\$10,000	\$12,000

X. Method of Administering Project

The Library Interpretation Project is administered by the State Library under supervision of the State Librarian. Services are provided by a public relations firm employed by the State Library.

XI. Method of Evaluation

The Library Interpretation Project is monitored continuously by the State Librarian, assisted by professional staff members responsible for individual programs and projects. At the beginning of the fiscal year, a projection of the program for the coming year is prepared by the public relations representative. Biweekly conferences are held with him to review all news releases, publicity materials, exhibits, or other items produced for the program. The representative prepares a biweekly report on activities. This is reviewed by all concerned staff members, and the program is revised or amended whenever new concerns or activities develop.

The Library Interpretation Project will be evaluated by the State Library staff in terms of the extent to which the 1979 prospectus has been carried out and the degree to which state and LSCA programs have been supported by the project.

Project IIA. General Operations

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

The purpose of this project is to provide for the on-going operations of the State Library. Specific objectives are:

- A. To administer the State program, with a State budget of some \$2,100,000, including:
 - 1. Statewide planning and development
 - 2. Services to State government
 - 3. Services to public libraries
 - 4. Services to institutions
 - 5. Services to the blind and physically handicapped
- B. To provide the personnel, space, and supporting services required to implement the Federal program.
- C. To fulfill State regulations governing personnel administration and fiscal management, including budgeting, accounting, reporting, and auditing.

II. Relationship to Long Range Program

The General Operations Project supports Goal I (and its subsidiary parts):

To strengthen the State Library Agency for the purpose of providing library leadership and services.

III. What the Project Expects to Accomplish

The General Operations Project will provide the personnel, equipment, space, supplies, maintenance, and supporting services required to carry on all functions of the State Library under both State and Federal programs. It makes possible a statewide program of library development and cooperation and thus contributes to improved library services for all South Carolinians.

IV. Needs Assessment

The total library resources of South Carolina fall short of both State and national standards of adequacy, and no individual library system has achieved the minimum goals for library service set forth in the State Program for Library Development. Without the leadership, service, and financial assistance provided by the State Library, the quality of library service for all South Carolinians would be significantly lower and services for special groups - the disadvantaged, the institutionalized, the blind and physically handicapped - would be reduced to minimal levels.

V. Who Is To Be Served

The entire population of the State will benefit by having a strong, efficiently operated State Library which serves as the central resource for information, materials, and services.

VI. Activities To Be Used To Meet Objectives and Needs

Activities will include, but not be limited to:

- A. Fiscal operations - budgeting, accounting, reporting, auditing
- B. Personnel administration - recruiting, training, supervision, evaluation
- C. Maintenance and operation of buildings and equipment
- D. Operation of State and Federal programs
 - 1. Technical Processes (See Title I, Project IIB)
 - 2. Reference and Interlibrary Loan (See Title III, Project I)
 - 3. Field Services (See Title I, Projects IIIA, IIIB, IIIC, IIID, IIIE, IVA, VB, VII, and VIII)
 - 4. Institutional Services (See Title I, Project VIA)
 - 5. Blind and Physically Handicapped (See Title I, Project VIB)
 - 6. Interlibrary Cooperation (See Title III Program)

VII. When and Where Project Will Be Implemented

The General Operations Project will be implemented in FY 79 in the headquarters of the South Carolina State Library.

Title I
Project IIA. General Operations

VIII. Key Libraries and Other Libraries Involved

South Carolina State Library

IX. Estimated Cost of and Sources of Funding

The project will be funded primarily by State appropriations which covers personnel, housing, maintenance, and the majority of all other operating costs.

Federal funds may be used to cover a pro-rated share of travel, communications, equipment, supplies, contractual services, and miscellaneous expenses directly attributable to the implementation and supervision of Library Services and Construction Act programs at the state and/or local levels. Because of the increasing volume and complexity of accounting and reporting for both State and Federal programs, ISCA funds will also be used in FY 79 to continue a second bookkeeper. Under the supervision of the Business Manager and Chief Bookkeeper, the new employee is primarily responsible for bookkeeping and records involved in the ISCA program.

Because State expenditures cover the cost of services to State government, the amounts expended for this purpose are deducted from the State appropriation to determine the amount of State money used to match ISCA funds.

Funds budgeted for FY 79:

<u>Federal</u>	<u>State</u>	<u>Total</u>
\$53,358 ¹	\$394,054 ²	\$447,412

¹ \$15,000 (est.) of this amount will be carried forward for use in FY 80.

² Does not include cost of service to
State government: \$35,572

X. Method of Administering Project

The General Operations Project will be administered by the State Library under the supervision of the State Librarian, Deputy Librarian, and Business Manager.

XI. Method of Evaluation

The operations of the State Library are monitored continuously by the State Librarian, Deputy Librarian, and Business Manager. All professional staff members make monthly reports on activities. Regular reviews by department heads, made quarterly or more often

South Carolina State Library

Fiscal Year 1979
Title I
Project IIA. General Operations

if needed, measure progress and evaluate activities. Monthly reports are made to the Library Board by the State Librarian, and the Advisory Council receives quarterly progress reports.

The success of the General Operations Project is directly reflected by the success or failure of the individual programs conducted by the State Library, the cooperation of South Carolina libraries, and public response to library programs. Pragmatically, success will be indicated by:

- (1) approval by the State Library Board and ISCA Advisory Council
- (2) approval of budget requests by the Budget and Control Board and by the General Assembly
- (3) successful compliance with regulations and requirements of State Personnel, the State Treasurer, the Comptroller General, the Legislative Audit Council, and the State Auditor.
- (4) scheduled completion or approved continuation of individual State and Federal projects.

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

1. To strengthen the resources of the State Library, and
2. To supplement and reenforce the resources of libraries throughout the state.

II. Relationship to Long Range Program

The Strengthening the State Library Agency project supports the following goals of the long range program:

- (I) To strengthen the State Library agency for the purpose of providing statewide leadership and services.
- (IB) To provide a comprehensive collection of information and materials and in-depth reference services supplementing the resources of public and institutional libraries.
- (IB1) To expand existing book and periodical collections to meet increasing reference and interlibrary loan needs.
- (IB2) To maintain a complete collection of State documents plus a strong collection of local documents.

III. What the Project Expects to Accomplish

This project attempts to build up the State Library's collection of books and materials to the point that it can adequately serve as a resource center for all libraries in the state.

IV. Needs Assessment

South Carolina's public libraries have less than 1.5 books per capita. Institutional libraries, though having higher per capita holdings, are all small collections limited in depth and breadth of holdings. No South Carolina library has adequate resources to serve all the needs of its patrons, none can afford to acquire all the resources needed, and to do so would be uneconomical in any case. A central collection capable of supporting the program of libraries throughout the state is the only feasible solution for South Carolina.

V. Who Is To Be Served

The entire population of the state may be served by the project since the resources it provides are made available to the patrons of all South Carolina libraries by means of the Interlibrary Loan Network.

VI. Activities To Be Used To Meet Objectives and Needs

Activities will include, but not be limited to, the following:

1. Select, acquire, process and catalog 8,000 books, 8,000 State and Federal documents, 1,500 periodical subscriptions, 500 reels of microfilm, 20,000 microfiche, plus filmstrips, maps, cassettes, records, and miscellaneous materials.
2. Maintain a collection of 142,000 books, 45,000 documents, 133,000 microfiche, plus periodicals, microfilm, etc.
3. Maintain the central catalog of all State Library holdings
4. Prepare the annual supplement to the microfilm edition of the catalog to be distributed to public, institutional, and selected academic libraries to facilitate interlibrary loan use.

VII. When and Where Project Will Be Implemented

The project will be implemented in FY 79 at the South Carolina State Library.

VIII. Key Libraries and Other Libraries Involved

The South Carolina State Library, directly

All libraries of South Carolina, indirectly

IX. Estimated Cost of and Sources of Funding

This project provides for the purchase of books, periodicals, microfilm and other library materials acquired by the State Library, plus the cost of cards, supplies, and equipment (but excluding personnel) used in processing these materials. The project will be partially funded by FY 78 LSCA funds carried forward into FY 79.

<u>Federal</u>	<u>State</u>	<u>Total</u>
\$60,000*	\$41,643	\$101,643

*\$50,000 (est.) of this amount will be carried forward
into FY 80.

X. Method of Administering Project

The project will be administered by the State Library staff under the supervision of the Technical Services Librarian, assisted by the Director of Reader Services and the Interlibrary Loan Librarian.

XI. Method of Evaluation

The project will be monitored daily by the Technical Services Librarian, with monthly progress reports on orders, acquisitions, and expenditures. The success of the project will be measured by the percentage of the budgeted funds that are expended for the purpose allocated within the fiscal year and by the number of items made available to the public as projected in item VI. The value of the project is demonstrated by the use made of the Interlibrary Loan collection (see Title III, Project I).

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

The purpose of this project is to extend and improve public library service throughout the State and to implement the State Plan at the local level. Specific objectives of the project are:

- A. To improve existing library service in all counties and regions by means of advice and assistance to public librarians and library boards.
- B. To encourage public libraries to work toward state and national standards for good library service by adapting efficient practices and procedures of organization and administration.
- C. To plan and develop improved public library service in areas having inadequate service through special projects such as pilot or demonstration projects.
- D. To promote the consolidation of inadequate library systems into larger units of service.
- E. To create an understanding of public library service and its objectives by educating trustees and citizens as to what good library service is.
- F. To provide information concerning the work and objectives of the South Carolina State Library.
- G. To obtain strong public support for South Carolina's program of library service on a local and statewide basis in order to secure increased financial support from local and state sources.
- H. To promote implementation of the State Program for Library Development.

II. Relationship to Long Range Program

The Field Services Project supports Goal II (and all its sub-goals):

To expand and improve public library service throughout the State, providing access for every resident, so as to further the educational, economic, and cultural enrichment of all citizens; and

Goal ID:

To provide consultant services for public, institutional,
and other libraries of South Carolina.

III. What the Project Expects to Accomplish

The Field Services Project will:

- A. Provide professional advice and assistance to the public libraries of South Carolina -- advice and assistance necessary to the improvement of public library service throughout the State.
- B. Provide the direction and supervision at the local level of State and Federally funded library projects.

IV. Needs Assessment

Although great strides have been made in recent years, South Carolina still falls short of both State and national standards of adequacy of library resources, personnel, service programs, and support. No individual library system has achieved the minimum goals for library service set forth in the South Carolina Program for Library Development. The Field Services Project, carried out by a team of public library consultants, is needed as an incentive or catalyst for improvement and/or development of areas of weakness. The staff of field consultants can serve in many ways as effective agents in making librarians more aware of the library needs of the state and ways to meet these needs: (a) by providing the necessary direction and evaluation of State and federal projects carried out at the local level; (b) by advising and guiding on a one-to-one basis, in meetings, and through state-wide workshops; (c) by constantly exploring solutions to local problems with library staffs and boards; (d) by providing ideas and information on such diverse topics as construction, staff development, and budget presentations. Availability at all times of a staff of trained librarians for consultation can give the state-wide library program a certain cohesiveness, continuity, and stability which it might not otherwise have. The state and federal aid distributed through this project are a significant factor in remedying deficiencies of service largely attributable to limited financial support at a time when the cost of materials is increasing by an average of 10% per year and salaries have increased 40% over the past seven years.

V. Who Is To Be Served

The entire population of the State will benefit from the consultant work which the Field Staff will do with the public librarians, trustees, and citizens to improve or develop regional library service throughout the state.

Activities To Be Used To Meet Objectives and Needs

- A. Advising and assisting the public libraries of South Carolina in overcoming local problems.
 1. Work with professional librarians: Act as liaison between the State Library and librarians; interpret the objectives and program of the State Library; and maintain good public relations.
 2. Work with inexperienced and untrained librarians: Provide in-service training and close supervision; explain the programs and objectives of the State Library; assist with preparation of the budget; assist in the planning and, if necessary, supervise major tasks, such as weeding, reclassifying, etc; encourage librarians to publicize services of the library and to devote more effort to public relations.
 3. Work with library boards: Represent the State Library at local board meetings; support librarians' budget requests; explain State Aid requirements, special contracts and agreements and State Library projects; assist in developing plans for improved library service; encourage cooperation with neighboring library systems.
 4. Work with the public: Meet with local organizations to provide information concerning public library service and its development through talks, exhibits, and distribution of publicity materials, talk with community leaders and key individuals about library service; interpret state and local library programs to patrons.
 5. Supervision of library pilot or other such special library projects designed to develop or reorganize county or regional library systems.
- B. Planning, monitoring, and evaluating specific LSCA Projects (See Title I, Projects IIIA, IIIB, IIIC, IIID, IIIE, IVA, VB, VII, and VIII.) involving grants estimated at \$600,000.
- C. Assisting in the administration of per capita State Aid totaling \$1,296,554 to county and regional libraries.
- D. Conducting at least one statewide workshop and assisting with other workshops sponsored by the State Library.
- E. Administering "mini grants" whereby small items of equipment or material are provided to all public libraries (and some institutional libraries) when it is more economical and handle orders, distribution, and payment from

- F. Assisting in the recruitment of qualified persons for public library positions in the State.
- G. Supporting the South Carolina Library Association and other professional organizations by encouraging trustees, librarians, and staff members to join associations and by stressing attendance at meetings and participation in activities of the association.

VII. When and Where Project Will Be Implemented

The project will be implemented in the 39 county and regional library systems of the State listed under VIII.

VIII. Key Libraries and Other Libraries Involved

The key libraries involved in the project will be the South Carolina State Library and the following county and regional library systems:

	92,461 State Library		
	\$1,380,015		

X. Method of Administering Project

Under the general supervision of the State Librarian and the Deputy Librarian, the project is administered by the Director of Field Services, assisted by the Field Staff. State grants-in-aid are paid to counties upon submission of budget proposals and supporting documents.

XI. Method of Evaluation

The Field Service Librarians, who will be responsible for implementing this project, will report to the Director of Field Services on all activities in their assigned counties by means of (1) written field reports (2) monthly reports and (3) annual ISCA project reports -- and by conferences as needed. On-site observation of projects will be made by Field Service Librarians as they make their round of field trips to their assigned counties during the year.

To a large extent, the success of the project will be determined by how successful local libraries are in achieving the goals and objectives spelled out in Standards for South Carolina Public Libraries.

To determine what degree of progress has been made toward reaching these Standards, the following areas will be examined closely:

Americans

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

The objectives of the Older Americans Project are:

- A. To make South Carolina librarians more aware of the needs of Older Americans and the responsibilities of the library in meeting those needs.
- B. To expand, extend, and promote present library services and programs which are appropriate for Older Americans.
- C. To experiment with new techniques, materials, services, and programs for Older Americans, especially ones for Older Americans not being reached by the library's traditional service.

II. Relationship to Long Range Program

The project will support Goal IIC3 of the long-range program: "to explore and test new methods of reaching the aged and home-bound."

III. What the Project Expects to Accomplish

Libraries have great potential for serving the educational, informational, and recreational needs of Older Americans. The project expects to:

- A. Raise the awareness of this potential among both librarians and Older Americans.
- B. Permit the demonstration libraries to improve and extend their already existing services and programs for Older Americans.
- C. Make it possible for the demonstration libraries to experiment with new techniques, services, programs, and types of material to reach Older Americans who have not been touched by traditional library service.
- D. Help libraries to promote and publicize their Older American programs more effectively.
- E. By demonstrating the importance of library service to Older Americans, (1) inspire other libraries to begin such service and (2) persuade the demonstration libraries to continue with their projects after the grant funds are exhausted.

IV. Needs Assessment

A 1976 publication prepared by the South Carolina Commission on Aging shows that 235,321 people (or 8 percent of the state's population) are 65 years of age or older. The number of those 65 and older has increased an estimated 32.8 percent since 1970. In view of the declining birth rate the percentage is expected to continue to increase in the years ahead.

In recent years under the stimulation of federal grants, a few South Carolina libraries have begun actively trying to serve Older Americans and to involve them in library activities. For the most part, however, these efforts have been conducted on a limited scale and have reached only a small proportion of the elderly. There are still many librarians who are not yet conscious of the significant role the library can play in the lives of Older Americans; there are large numbers of elderly completely untouched by present library services.

V. Who Is To Be Served

Older Americans (persons 60 and above) living in Laurens and Lexington counties will be served by the project.

VI. Activities To Be Used To Meet Objectives and Needs

A. The State Library will:

1. Offer grants to the same two libraries which received demonstration funds in FY 1978 to permit them to continue their projects.
2. Through the Field Service Librarian assigned to the project, provide developmental and technical assistance to the demonstration libraries and make available to them information on Older Americans and library programs for Older Americans.
3. At the state level help the demonstration libraries publicize their projects and coordinate efforts with those of the State Commission on Aging and other agencies serving the aging.
4. Monitor the two demonstration projects through field visits and other activities.

Columbia, South Carolina 29201
Fiscal Year 1979
Title I
Project IIIE. Service to Older
Americans

B. Each of the two demonstration libraries will:

1. Continue to employ a qualified professional or pre-professional librarian to develop and carry out its Older Americans Project and provide any additional staff required to support the work of the Older Americans librarian.
2. Develop a viable program of services for older citizens, including both in-house and outreach activities, using traditional and innovative materials and techniques, supported by a well-planned publicity program.
3. Involve Older Americans and such agencies as the local council on aging in the planning, implementation, and promotion of the Older Americans Project.
4. Consult regularly with the Field Service Librarian assigned to the project and provide the State Library with a budget and regular reports on the project.

VII. When and Where the Project Will Be Implemented

This is an ongoing project which will be continued in FY 79 at the Laurens County Library and the Lexington County Circulating Library.

VIII. Key Libraries and Other Libraries Involved

"Key libraries" will be the two demonstration libraries:

Laurens County Library, 321 S. Harper Street,
Laurens, South Carolina 29360

Lexington County Circulating Library,
Batesburg, South Carolina 29006

"Other libraries" are the other 37 public library systems in the state. These will receive information about the services and programs of the demonstration libraries and be encouraged to improve and expand their own Older Americans programs.

Americans

IX. Estimated Cost of and Sources of Funding

The sources of funding and costs are as follows:

- A. The original grants (Total - \$35,000) made to the two demonstration libraries from FY 78 LSCA Title I funds will carry the Laurens County Library project and the Lexington County Circulating Library project through September 1979.
- B. FY 79 LSCA Title I funds allocated for this project for FY 80 will total \$18,928. Local funds used to match LSCA Title I funds during FY 1979 will total \$13,138.

FY 79 funds budgeted:

<u>Federal</u>	<u>Local</u>	<u>Total</u>
\$18,928	\$13,138	\$32,066

X. Method of Administering the Project

In each library system the day-to-day operation of the demonstration project will be the responsibility of the Older Americans librarian, who will work under the supervision of the head librarian or his deputy. From the state level the projects will be supervised by the Deputy State Librarian and the Field Service Librarian.

XI. Method of Evaluation

The Older Americans librarians in the demonstration libraries will make regular reports to the head librarian or his deputy and will prepare a budget and written monthly and annual reports for the State Library. The reports to the State Library will include a description of accomplishments, failures, problems, and activities and will document the number and types of persons reached. On the state level the demonstration projects will be evaluated by the Deputy State Librarian and the Field Service Librarian.

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

The purpose of this project is to improve the quality, extent, and scope of library service to children throughout the state. Specific objectives of the project are:

- A. To provide guidance and assistance to public libraries in the development and provision of library service to children.
- B. To promote cooperation among all types of libraries serving children and to coordinate activities with other agencies concerned with the child's welfare.
- C. To develop in library staff, governing bodies, and the community an understanding of the scope of public library service to children and an appreciation of its potential role in the educational and social development of children.

II. Relationship to Long Range Program

The Service to Children Project supports:

Goal II. To expand and improve public library service throughout the State... (and)

Goal ID. To provide consultant services for public, institutional, and other libraries in South Carolina.

III. What the Project Expects to Accomplish

The Service to Children Project will:

- A. Provide professional advice and assistance to the public libraries of South Carolina in the improvement of library service to children.
- B. Provide state level planning and promotion for library service to children.

IV. Needs Assessment

Although the provision of books and reading for children is a traditional activity of South Carolina public libraries, discrepancies exist as to the quality, quantity, and type of service available and the extent to which this service is given. Some services are not available to all; other services are available to adults, but not to children.

South Carolina State Library
1500 Senate Street
Columbia, South Carolina 29201
Fiscal Year 1979
Title I
Project IIIF. Service to Children

As libraries broaden their range of services and as personnel and administrative costs skyrocket, there has been a tendency to leave service to children to untrained or inexperienced staff. Only ten public libraries in the state have full-time children's librarians or coordinators. Only eight of these have professional librarians in these important posts. Under such circumstances library service to children tends to be reduced to a minimum: circulation, an occasional story hour, and a routine summer reading program.

There are 789,709 South Carolinians under age fourteen according to the 1970 census. 189,223 or 25% of these, are registered library borrowers. An experienced state consultant can provide the leadership, training, and enthusiasm which will stimulate better service to present users and extend it to many children now unserved.

V. Who Is To Be Served

The consultant will work directly with library administrators, children's librarians, and system coordinators; but it will be the children of South Carolina who will benefit from improved service. The initial goal will be to reach 250,000 persons with that number growing when the program is well established.

VI. Activities To Be Used To Meet Objectives and Needs

The project will enable the State Library to employ a Field Service Librarian for Children's Services who will:

- A. Work with library administrators in planning and upgrading children's programs, recruiting qualified staff, and developing effective techniques for measuring and evaluating children's services.
- B. Work with children's librarians and coordinators by means of field visits, conferences, and correspondence to establish goals and objectives for children's services, to develop effective techniques of work with children, and to select and evaluate materials for children.
- C. Develop a continuing education program for children's services personnel including orientation for new children's librarians, workshops, conferences, scholarships, study trips, and other activities.
- D. Plan and coordinate a program of publicity to be implemented at state and local levels.

- E. Initiate demonstration programs or experimental projects at the state or local level.
- F. Establish liaison with all agencies, both state and local, that are concerned with children.
- G. Encourage communication and cooperation between school, public, and other libraries serving children.
- H. Participate in the activities and programs of professional library and related organizations.

VII. When and Where Project Will Be Implemented

The project will be implemented in FY 79 in the 39 county and regional library systems of the State listed under VIII.

VIII. Key Libraries and Other Libraries Involved

IX. Estimated Cost of and Sources of Funding

LSCA funds will be used for the salary and employee benefits of the Field Service Librarian for Children's Services as well as travel, supplies, publicity, printing, and related expenses necessary for implementation of the project. The State Library will absorb housing, equipment, administrative, and secretarial costs through the General Operations Project.

Funds budgeted for FY 79:

<u>Federal</u>	<u>State</u>	<u>Total</u>
\$35,000*	0	\$35,000

*\$20,000 of this amount will be carried forward for use in FY 80.

X. Method of Administering Project

Under the general supervision of the Director of Field Services, the project is carried out by the Field Service Librarian for Children's Services.

XI. Method of Evaluation

The Field Service Librarian for Children's Services will report to the Director of Field Services by means of (1) written field reports, (2) monthly reports, and (3) annual LSCA project reports -- and by conferences as needed.

To a large extent, the success of the project will be determined by how successful local libraries are in meeting the goals and objectives spelled out in Standards for Children's Services in Public Libraries (ALA).

To determine what degree of progress has been made toward reaching these Standards, the following aspects of children's services in local libraries will be examined closely:

The following statistics will be used to demonstrate activities at the state level:

- Number of field trips made during the year
- Number of library systems served
- Number of projects and activities initiated
- Number of workshops and training programs planned and carried out
- Number of instances in which recruiting and placement services are provided
- Number of times the Field Service Librarian for Children's Services represented the State Library at local, state, and national conferences, conventions, workshops, professional associations, civic organizations, or other State and local agencies

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

The purpose of the Library Development Project is to strengthen and improve the State's total public library program by enabling individual library systems to improve or extend services in areas of demonstrated need. Specific objectives are:

- A. To insure a good level of service throughout the entire service area through the improvement of headquarters, branch and book-mobile service.
- B. To provide staff adequate in numbers and training to meet the varied and changing demands of service.
- C. To provide library collections (in number, quality, and diversity) and supportive equipment to meet the informational needs of the library public.
 - 1. To strengthen basic book collections.
 - 2. To assist libraries in building essential non-print media collections.
 - 3. To strengthen print and microfilm collections of periodicals.
- D. To provide the library equipment (such as copiers, microfilm readers, AV, etc.) necessary for good library service.
- E. To extend library services of all kinds to groups or individuals presently unreached or inadequately served (aging, disadvantaged, handicapped, rural, etc.)

II. Relationship to Long Range Program

The Library Development Project supports Goal II:

To expand and improve public library service throughout the state, providing access for every resident, so as to further the educational, economic, and cultural enrichment of all citizens.

III. What the Project Expects to Accomplish

The Library Development Project will enable participating county and regional libraries to strengthen local services and programs judged to be in the greatest need of improvement.

South Carolina State Library
1500 Senate Street
Columbia, South Carolina 29201
Fiscal Year 1979
Title I
Project IVA. Library Development

It will be necessary for local projects to be justified on the basis of need as spelled out in South Carolina's Long Range Program, which aims at helping local library systems achieve standards in the basic areas of materials, services, and personnel.

In FY 79, each qualifying library will be requested to design a project which takes in to consideration the following priorities and emphases of the State Program:

1. Building adequate collections of basic library materials, with emphasis on:
 - a. Two books per capita
 - b. Periodicals having reference and information value
2. Extending service to groups unserved or inadequately served with emphasis on:
 - a. Bookmobiles and branches
 - b. Outreach to the disadvantaged, aged, homebound, incarcerated, etc.
3. Providing quality service (including qualified personnel, materials, and equipment) in basic areas with emphasis on:
 - a. Extension and Outreach
 - b. Reference
 - c. Children's service
 - d. Adult service

Proposals which fall outside these parameters are unlikely to be approved unless the library has made substantial progress in each priority area.

IV. Needs Assessment

The total library resources of South Carolina fall short of both State and national standards of adequacy, and no individual library system has achieved the minimum goals for library service set forth in the State Program for Library Development.

South Carolina State Library
1500 Senate Street
Columbia, South Carolina 29201
Fiscal Year 1979
Title I
Project IVA. Library Development

A. Public Library Resources

1. According to all standards, public libraries should have at least 2 books per capita. Only 4 county and regional libraries have 2 books per capita, and 5 have less than 1 book per capita.
2. Only 11 of the 39 county and regional library systems have a book collection of 100,000 volumes, the number regarded by library authorities as the minimum necessary for most reference purposes and for general reading and study.

B. Library Personnel

1. In 1979, there are only 138 professionally trained librarians employed in South Carolina's public libraries.
2. Fifteen libraries have only one professional librarian to plan and administer programs.
3. At present 4 county and regional libraries have no professionally trained staff members.

C. Library Service Programs

1. Only 10 libraries have a full-time reference librarian.
2. Only 3 libraries have an organized program of service to business and industry.
3. Only 10 libraries have a full-time children's librarian.
4. Only 5 libraries have a full-time adult services librarian.
5. Only 8 libraries have a full-time extension librarian.
6. Few of South Carolina's libraries are able to provide sufficient audio-visual material collections, circulating art collections, and adult education materials or to offer adult discussion programs, special programs for young people, and many other services that should be available to South Carolinians.

South Carolina State Library
1500 Senate Street

Fiscal Year 1979
Title I

D. Public Library Support

1. Per capita local support of \$3.09 is still far below all standards.
2. South Carolina provides 50¢ per capita State Aid to each county and regional library system.
3. Only two library systems in South Carolina have achieved \$4.00 per capita total support (all sources) projected by the State Program for Library Development (1972) as the minimum needed to provide quality library service. No libraries can approach national standards.

V. Who Is To Be Served

The educational, economic, and cultural enrichment of all citizens of the 34 participating county and regional libraries will be furthered by this project, which is intended to expand and improve public library service throughout the state and to improve access to libraries.

VI. Activities To Be Used To Meet Objectives and Needs

Activities will involve the planning, funding, and monitoring of the projects of the 34 participating libraries. Subgrants of 10¢, 12¢, 14¢, and 16¢ per capita, as shown in part VIII, will be made on the basis of population served and total LSCA funds previously received under Titles I, III, and IV from 1956-1978 -- provided that no grant shall exceed \$16,000 nor be less than \$3,000. The per capita allocation of funds by qualifying county or regional library breaks down as follows:

- (1) Ten cents per capita to those libraries which have received over \$2.75 per capita of LSCA funds.
- (2) Twelve cents per capita to those libraries which have received between \$2.00 and \$2.74 per capita of LSCA funds.
- (3) Fourteen cents per capita to those libraries which have received between \$1.25 and \$1.99 per capita of LSCA funds.
- (4) Sixteen cents per capita to those libraries which have received between \$.00 and \$1.24 per capita of LSCA funds.

Those local projects will include but not be limited to the following activities:

- A. Strengthening existing library programs such as adult services, services to children, reference service, bookmobile and branch library services.

1. by adding trained personnel.
 2. by adding resources to support these programs.
- B. Extending service to new groups (aging, disadvantaged, handicapped, rural, or other unreached segments of the population) by a variety of outreach methods.
1. Bookmobile programs.
 2. Deposit collections in agencies, organizations, institutions used by these groups.
 3. Innovative and/or experimental programs for the incarcerated, those in nursing homes, adult education groups, day care centers, those in business and industry, etc.
- C. Expanding, improving, or maintaining the resources of libraries
1. Grants-in-aid for purchase of new books or rebinding of worn ones.
 2. Grants to assist libraries to build or strengthen their collections of AV materials and other essential non-print media collections.
 3. Funds to buy library equipment.
- D. Encouraging planned programs of publicity to keep the public informed about the acquisition of materials and equipment, the employment of additional personnel, and the extension of services made possible by the project.
- E. Meetings and conferences with library boards, administrators, and staff to explain needs, plan programs, and monitor activities of the project.

VII. When and Where Project Will Be Implemented

The Library Development Project will be implemented during FY 79 in the 34 county and regional libraries listed under VIII.

VIII. Key Libraries and Other Libraries Involved

The South Carolina State Library will make sub-grants to the following county and regional libraries:

Estimated LSCA funds to be carried forward FY 80: \$40,000

X. Method of Administering Project

On the state level the Library Development Project will be administered by the South Carolina State Library directly supervised by the Field Staff and on the local level by the staff of the local library. Financial reports and records will be maintained by the State Library.

XI. Method of Evaluation

Proposals for grants-in-aid under this project will be evaluated and approved on the basis of the following criteria: legality, goal-relationship, feasibility, population served, replicability, local management capacity, and need. Local projects will be monitored very closely by the State Library Field Staff via frequent field trips,

Fiscal Year 1979
Title I
Project IVA. Library Development

consultations with local librarians, and periodic evaluations of the project programs. Grant recipients themselves will help evaluate the programs in which they participate by submitting regular reports on expenditures and annual self-evaluations.

The success of the Library Development Project is directly reflected by how successful the local libraries are in implementing their individual projects and in reaching the objectives stated in each county's project proposal. The State Library Field Staff will evaluate each of the local projects in terms of the following:

1. The individual objectives established by each library.
2. The percentage of the target group reached.
3. The number of disadvantaged reached.
4. The method of publicizing the project.

Statewide, the success or failure of the project will be determined by progress made toward achieving the minimum goals and objectives for library services set forth in the South Carolina Program for Library Development and in Standards for South Carolina Public Libraries. To determine the degree of progress made toward reaching the goals spelled out in these standards, the following areas will be examined and statistics given to support progress made in any of the areas:

1. Public Library Resources.
2. Library Personnel.
3. Library Services Programs.
4. Public Library Support.

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

1. To improve public library reference service by strengthening the resources of South Carolina public libraries.
2. To meet the standards established by the South Carolina Library Association for periodical holdings of public libraries.

II. Relationship to Long Range Program

The Periodicals Project supports the following goal of the long range program:

(IIIB3) To strengthen print and microfilm periodical collections.

III. What the Project Expects to Accomplish

This project will enable the local library both to maintain and strengthen its reference resources. It makes possible a wider subject range of current periodicals and the building of back files of periodicals having reference value.

IV. Needs Assessment

Approximately 20% of South Carolina's public libraries do not meet the SCLA standards for periodical holdings. Those meeting the standards have been able to do so only with the assistance of this project. Continuation of the project is vital both to maintenance and strengthening of collections. The maximum grant available is based on the population served.

V. Who Is To Be Served

Patrons of the thirty-four county and regional public library systems participating in the project will be served.

VI. Activities To Be Used To Meet Objectives and Needs

Activities will include the following:

1. Grants will be offered to 35 county and regional library systems. Grants will cover continuing subscriptions to periodicals and indexes purchased under the original project. In 1978-79, libraries will be permitted to revise and in some cases add to their subscription list.

South Carolina State Library
1500 Senate Street
Columbia, South Carolina 29201

2. Subscriptions will be placed for approximately 2,300 continuing and/or new subscriptions. Selection of titles will be made from standard periodical indexes. The type of index for approved sources will be used on population served.
3. Invoices will be submitted to the State Library and payment will be made on a reimbursement basis.
4. Participating libraries will submit publicity plans related to the grant and will forward copies of publicity received to the State Library.

VII. When and Where Project Will Be Implemented

The Periodical Project will be implemented in FY 79 through the thirty-four participating libraries.

Project IIID. Service to the
Disadvantaged

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

The purpose of this project is to extend and improve library service to the disadvantaged segment of the population not heretofore reached, or previously given very limited service. Specific objectives are:

- A. To plan, develop, maintain or expand programs of service for the disadvantaged with emphasis upon innovative outreach activities.
- B. To provide competent personnel having the special training and personal qualifications needed for outreach work by recruitment, salary supplements, and training programs.
- C. To develop collections of materials suitable in format, subject, interest, and reading level for use with the disadvantaged.
- D. To promote mutual cooperation between libraries and other State and local agencies serving the disadvantaged.
- E. To assist new or weak county library systems to develop minimum levels of service and financial support prerequisite for outreach services.
- F. To provide adequate access to library service in rural and other isolated areas by strengthening and expanding library extension programs.

II. Relationship to Long Range Program

The Service to the Disadvantaged Project supports Goal IIC:

To extend library service to groups and individuals unable to utilize conventional means of service for reasons of economic, educational, social, cultural, or geographical handicaps.

III. What the Project Expects to Accomplish

The Service to the Disadvantaged Project will:

- A. Extend library service to that segment of the urban and rural population which because of economic, cultural, social, and educational handicaps are not users of the public library.

Title I
Project IIID. Service to the
Disadvantaged

- B. Make library trustees and staff aware of the service needs of the disadvantaged population.
- C. Make service to the disadvantaged an integral part of public library service.

IV. Needs Assessment

It has been demonstrated that the geographically isolated, the educationally and culturally deprived, and the financially disadvantaged do not make full use of library service.

- A. Twenty-eight counties in South Carolina have over 20% of families with incomes below poverty levels. Nineteen of these counties have over 25% poverty level population.
- B. There are 594,938 people in South Carolina with incomes below poverty level. (Over 22% of population below poverty level.)
- C. 38.1% people 25 years and older in South Carolina have less than one year of high school.
- D. Since only 21% of all South Carolinians are regular users of public libraries, an even lower percentage of disadvantaged persons may be assumed to be library patrons.

V. Who Is To Be Served

Persons who have educational, socioeconomic, cultural, or other disadvantages that prevent them from receiving the benefits of library services designed for persons without such disadvantages and who for that reason require specially designed library services will be served through grants made to libraries in areas serving a high percentage of disadvantaged population.

VI. Activities To Be Used To Meet Objectives and Needs

Activities will include:

- A. Planning, funding, and monitoring 26 on-going projects conducted by libraries in areas serving a high percentage of disadvantaged population.

These projects will include but not be limited to the following activities:

14 bookmobile and branch library programs

20 outreach programs for special groups, i.e.:

children	Adult education
elderly	nursing homes
incarcerated	

21 staff employed to provide service

2 in-service training programs

10 deposit collections in agencies and areas used by disadvantaged

8 special programming in library for disadvantaged groups

25 cooperating with other agencies serving disadvantaged, i.e.:
literacy associations, Adult Basic Education, Department of
Social Services, etc.

- B. Planning, gaining support for, and implementing at least one new project.
- C. Providing a central collection of audio-visual materials needed in the programs serving the disadvantaged.
- D. Meetings and conferences with library boards, administrators, and staff to explain needs, plan programs, and monitor activities.
- E. Conferences with representatives of other agencies serving the disadvantaged state and local, to exchange information and coordinate activities.
- F. Collecting and disseminating pertinent information from state and national programs and organizations.

VII. When and Where Project Will Be Implemented

Counties meeting the following criteria will be eligible to receive grants during FY 79:

1. Counties with creative and superior FY 78 projects which justify renewal.
2. Counties with over 25% disadvantaged population.
3. Counties with over 20,000 disadvantaged but under 25% disadvantaged population.
4. Counties with over 20% disadvantaged population.

In order for programs to continue without annual interruptions due to uncertainties regarding LSCA funding, local projects are designed to operate on a calendar year (January-December) and therefore a portion of FY 78 funds will be carried forward for salaries and transportation expenses during October-December (1979).

Estimated LSCA funds expended FY 78: \$145,000

Estimated LSCA funds carried forward FY 79: \$40,000

X. Method of Administering Project

The project will be administered on the local level by the staff of the local library with supervision by the State Library Field Staff. Financial records and reports will be maintained by the State Library.

XI. Method of Evaluation

Field Staff will monitor this project by making frequent field visits, consulting with local libraries and with staff engaged directly in working with the disadvantaged, and making periodic evaluations of project programs. Local libraries will submit annual reports on expenditures and self-evaluations.

The project will be evaluated by the State Library Field Staff in terms of the following criteria:

1. The individual objectives established by each library.
2. The number of disadvantaged reached.
3. The percentage of the target group reached.
4. The accessibility of services to the disadvantaged.

- Number of library systems served.
- Number of local library board meetings attended.
- Number of ISCA projects supervised and total amount of those Federal library projects.
- Total amount of local library budgets.
- Total amount of State Grants-in-Aid administered to county and regional library systems.
- Number of workshops actually planned and carried out by the Field Staff.
- Number of times the Field Staff represented the State Library at local, State, and national conferences, conventions, workshops, professional associations, building dedications, civic organizations, and other State and local agencies.
- Number of instances in which the Field Staff provided recruiting, placement, and training services for public libraries.

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

1. To improve public library service immediately through training of public and institutional library personnel at all levels and to provide for better informed public library trustees.
2. To provide for State Library sponsored workshops to meet specific needs.

II. Relationship to Long Range Program

The Career Education Project supports the following goal of the long range program:

(IIA1) To provide adequately trained personnel for the varied and changing demands of librarianship.

III. What the Project Expects to Accomplish

This project will provide opportunities for continuing education through scholarship grants to attend academic courses in librarianship for non-professional personnel and workshops, travel grants, and in-service training for professional and non-professional personnel as well as public library trustees.

IV. Needs Assessment

Four of South Carolina's thirty-nine county and regional library systems are administered by non-professional personnel who are in continuous need of up-grading their library skills and in meeting requirements for pre-professional certification. All library systems include non-professional staff who will benefit both from academic courses in library science and from workshops designed to meet specific needs. The nationwide emphasis on continuing education for all professions demonstrates the need to provide for continuing education opportunities for professional library personnel at all levels. Well informed trustees are essential to the planning, development, and maintenance of sound library systems.

V. Who Is To Be Served

All public and institutional library personnel will be eligible under the project so that the total population will benefit.

VI. Activities To Be Used To Meet Objectives and Needs

Activities will include the following:

1. Information will be compiled and distributed to all public and institutional libraries on academic courses in library science offered during the summer session by the state's colleges and universities. Notification of continuation of scholarships for the full academic year will be sent to all public and institutional libraries.
2. Information on conferences and seminars will be distributed to professional personnel who can benefit from them.
3. The State Library will plan and sponsor workshops, study tours, or other activities to meet specific needs when suitable workshops are not available from other sources.

VII. When And Where Project Will Be Implemented

The Career Education: Workshops Project will be implemented in FY 79 by the State Library Field Staff throughout the state.

VIII. Key Libraries And Other Libraries Involved

The South Carolina State Library and all public and institutional libraries in the state.

IX. Estimated Cost of and Sources of Funding

LSCA Title I funds will be used to cover the cost of all scholarship grants, workshops, and/or travel and conference grants as well as any workshops conducted by the State Library. FY 78 funds are also available for use in FY 79.

FY 79 funds budgeted:

<u>Federal</u>	<u>State</u>	<u>Total</u>
\$3,000*	-0-	\$3,000

*\$2,000 (est.) of this amount will be carried forward for use in FY 80.

X. Method of Administering Project

XI. Method of Evaluation

The project will be monitored by the Field Staff. Libraries receiving grants must meet all requirements for State Aid. Evaluation reports will be submitted by all grant recipients and workshop or conference participants. The project will also be evaluated on:

- (1) The successful allocation, obligation, and expenditure of ISCA funds approved for the project in FY 79;
- (2) The successful implementation of the scholarship grant and workshop and/or travel grant program;
- (3) The successful implementation of the workshops or seminars sponsored by the State Library.
- (4) The subsequent improvement in library service as measured by administrators' assessment of staff performance or by general observation.

Project IIIC. Metropolitan Libraries:
Resource Centers

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

- A. To improve in-depth reference resources of six metropolitan libraries which serve as resource libraries for surrounding areas and thus to improve reference service to the people of the entire state.
- B. To meet the Standards for South Carolina Public Libraries, which recommend a network of area resource libraries, each one to serve an area not more than half a day's round trip for its users.

II. Relationship to Long Range Program

The project supports the following goal of the long range program directly:

Goal IID: To strengthen metropolitan libraries which serve as regional resource centers.

and the following goal indirectly:

Goal VB: To establish and maintain a system of Area Reference Resource Centers which will provide an improved level of reference service for all residents.

III. What the Project Expects to Accomplish

This project will enable the six recipient libraries to purchase reference materials needed to give depth to the reference collection in their headquarters libraries.

Reference service to the entire state will be improved as the recipient libraries agree to allow their collections to be used on a referral basis by adults from neighboring counties.

IV. Needs Assessment

Although there has been progress in recent years, reference collections in the state are still uneven. Several libraries have token reference collections; others have only the basic reference works; a few have better-than-average collections but do not have the funds to purchase the most expensive, specialized tools, particularly those in the field of business and science.

Title I
Project IIIIC. Metropolitan Libraries:
Resource Centers

It is an important function of today's library to serve the reference and information needs of its citizens. Since it is financially impossible to develop a strong reference collection in every library, the Standards for South Carolina Public Libraries recommend the development of a few resource libraries which could be utilized by citizens of the surrounding area. The Metropolitan Libraries Project provides grants for the development of these resource library collections. The evaluations of this project in past years proved that the funds allocated have enriched the collections of the participating libraries and that those involved wish the project to be continued.

V. Who Is To Be Served

People of the entire state will be served by the project. The six libraries receiving grants will act as resource libraries for their surrounding areas and agree to open the use of their reference collection on a referral basis to serious adult library patrons in neighboring counties.

VI. Activities To Be Used To Meet Objectives and Needs

Activities will include the following:

A. Grants to libraries will be made in two categories:

1. Three libraries, Charleston, Florence, and Greenville, will each receive a grant of \$10,000; three other libraries, Aiken, Richland, and York, will each receive a grant of \$5,000. Grants are to be earmarked for the purchase of reference materials needed to give depth to the central reference collection for the area. Materials are to be selected from standard reference selection tools. If requested, a portion of the grant may be used for microfilm runs of periodicals of reference value.
2. Richland County Public Library will receive an additional \$5,000 under provisions of the Urban Library Amendments to ISCA for the purchase of adult non-fiction materials to strengthen the library's collection so that it may better serve as a resource for the entire area.

- B. Libraries receiving the grant must satisfy the State Library that they:
1. Meet all requirements for state and federal aid.
 2. Will not reduce their current budget for reference materials below the amount of local funds utilized for this purpose during the preceding year.
 3. Will open the use of their reference collection on a referral basis to serious adult patrons from neighboring counties.
- C. The State Library will pay grants to the recipient libraries on a reimbursement basis upon the submission of acceptable records for expenditures of the funds.
- D. Both the State Library and the recipient libraries will publicize the project. The recipient libraries will submit publicity plans and will forward copies of publicity to the State Library.
- E. Each recipient library will host a meeting of the librarians in the area to review the project, discuss means of interlibrary cooperation, and exchange information on resources available.

VII. When and Where Project Will Be Implemented

The project will be implemented in Fiscal Year 1979 in the headquarters building of the six libraries.

VIII. Key Libraries and Other Libraries Involved

"Key libraries" are the six libraries receiving grants:

Aiken County Public Library, 224 Laurens Street, S.W.,
Aiken, South Carolina 29801

Charleston County Library, 404 King Street, Charleston,
South Carolina 29403

Florence County Library, 301 South Irby Street,

York County Library, 325 South Oakland Avenue,
Rock Hill, South Carolina 29730

"Other libraries" are those which refer their users to the collections of the recipient libraries and which in various ways help to promote the project. These include all other libraries in the state, special and academic as well as public.

IX. Estimated Cost of and Sources of Funding

The estimated cost of the project is \$50,000; the source of funding is LSCA Title I, Fiscal Year 1979.

X. Method of Administering Project

The project will be administered by the Field Services staff of the State Library, and financial records will be maintained by the State Library.

XI. Method of Evaluation

- A. The project will be monitored by the Field Services staff of the State Library through continual communication (telephone, mail, and field visits) with the libraries involved and through the checking of project invoices.
- B. The final evaluation of the project will be done by the Field Services staff, using the records of the six libraries, observations made through field visits, and assessments by area librarians of benefits to library users.
- C. In the evaluation special attention will be paid to the following:
 1. Quality and quantity of materials ordered and the value of the materials for reference use.
 2. Evidence that the materials purchased were utilized by adults from neighboring counties as well as by the regular users of the recipient libraries.
 3. Publicity received by the project.
 4. Any other evidence that the project is reaching its objective.

IX. Estimated Cost of and Sources of Funding

FY 78 carry-over LSCA Title I funds will be used to cover the cost of all grants to participating libraries during FY 79. To insure uninterrupted funding, FY 79 funds will be carried forward into FY 80 to pay periodical invoices due in the fall just when the fiscal year changes.

FY 79 funds budgeted for FY 80:

<u>Federal</u>	<u>State</u>	<u>Total</u>
\$39,000	-0-	\$39,000

X. Method of Administering Project

The project will be administered by the South Carolina State Library and supervised by the State Library Field Staff.

XI. Method of Evaluation

The project will be monitored by the Field Staff. Libraries receiving grants must meet all requirements for State and Federal Aid. The success of the project will be measured through evaluation reports submitted by directors of county and regional libraries. The project will also be evaluated on:

- (1) the successful allocation, obligation, and expenditure of LSCA funds approved for the project in FY 79;
- (2) the number and variety of titles which libraries are enabled to purchase through the grant;
- (3) accessibility and placement of the periodical collection;
- (4) the publicity given the project; and
- (5) the value of the collection as a source of current as well as retrospective reference material.

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

The objectives of the Institutional Library Services Project are:

- A. To establish and administer effective State standards governing personnel, materials, equipment, space, and physical facilities for institutional library service.
- B. To stimulate recognition of library service as an integral part of education and rehabilitation by State institution administrators and personnel and to elicit institutional financial support for library service.
- C. To provide technical professional advice and assistance on a continuing, consistent basis.
- D. To recruit and train qualified personnel.
- E. To develop collections adequate to meet the needs of patients and residents.
 - 1. To provide incentive grants for improvement of collections to institutions meeting minimum requirements.
 - 2. To provide service programs, planned to meet specific needs to institutions too small to maintain a full program of library service.
- F. To provide reference services and supplementary resources for professional personnel in health and rehabilitation institutions.
- G. To test and develop programs of bibliotherapy and service for emotionally and educationally handicapped individuals.

II. Relationship to Long Range Program

The Institutional Library Services Project supports Goal III of the long range program:

To promote the establishment and development of institutional library service capable of supporting treatment, education, and rehabilitation programs in State health and correctional institutions.

Services

III. What the Project Expects to Accomplish

This project expects to build and enrich institutional library collections and services so that they may adequately serve the day-to-day needs of residents as well as the long term requirements of their treatment and rehabilitation in health care and correctional institutions.

IV. Needs Assessment

All State supported residential institutions now have libraries. However, their collections and services range from mediocre to above average. Only one library has achieved an excellent (?) level of service when measured by appropriate standards, but when considered against the enormous changes presently taking place in almost all South Carolina institutions all are working against tremendous odds. In addition to improved service to residents, this project is needed as an incentive for continued institutional support of their libraries, all but three of which were established as a result of this program.

V. Who Is To Be Served

All residents of State institutions will benefit through improved library collections and services.

<u>Institutions</u>	<u>Population (est.)</u>
Correctional	8,987
Other	<u>10,569</u>
Total	19,556

VI. Activities To Be Used To Meet Objectives and Needs

Activities will include but not be limited to the following:

1. Services of the Institutional Library Consultant who will:
 - a. Plan, develop, and supervise programs for State institutional libraries
 - b. Visit 19 residential institutions 6 times per year (or as needed) to advise and assist the librarian
 - c. Train and orient new or untrained librarians

- d. Confer at least twice a year with institutional administrators about library needs and objectives
 - e. Assist in the development of bibliotherapy projects in at least 3 institutions
 - f. Assist in revising and updating book selection policies and procedures in at least 4 institutional libraries
 - g. Monitor LSCA grant programs
- 2. A workshop to provide training for institutional librarians in areas of demonstrated need. (\$1,000)
 - 3. Book Collection Improvement Grants totaling \$41,400, awarded to 24 institutional libraries on the basis of population, need, and institutional support.
 - 4. Service to the South Carolina Convalescent Center for Crippled Children provided through contract with the Florence County Library. (\$2,600.00)
 - 5. Paperback book collections provided to at least 4 institutions too small to maintain full library services.
 - 6. Assist in the overall development of library service in one new mental health institution.

VII. When and Where Project Will Be Implemented

The project will be implemented in FY 79, under the supervision of the State Library, at the individual institutions.

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

The objectives of the Service to the Blind and Physically Handicapped Project are:

1. To encourage greater use of services for the handicapped by a continuing program of publicity, promotion, and education.
2. To provide a full range of reading materials -- talking books, open reel tape, cassettes, large print, and braille -- for handicapped readers in South Carolina.
3. To make library service accessible to handicapped individuals at the local level wherever possible.
 - a. To develop browsing collections of talking books, tapes, and cassettes in major metropolitan libraries.
 - b. To provide collections of large-type books for visually handicapped readers.
 - c. To encourage participation by handicapped readers in established library programs.
4. To coordinate library services for the handicapped with programs of the South Carolina Commission for the Blind, the Vocational Rehabilitation Department, the State Department of Education, Commission on the Aging, the Governor's Committee on Employment of the Handicapped, and other agencies and organizations serving the handicapped.
5. Specific objectives for FY 79 are:
 - a. To have a net gain of 1,000 new readers, which will bring total as of September 30, 1979 to 6,535.
 - b. To continue to record South Carolina titles.
 - c. To acquire from other regional libraries titles recorded by their volunteer groups.
 - d. To duplicate extra copies of cassette titles as needed so there will be little or no waiting for materials.

South Carolina State Library
1500 Senate Street
Columbia, South Carolina 29201

- e. To acquire open reel sub-master tapes of titles originally issued by LC on disc so they can be converted to cassette tape.
- f. To acquire extra copies of needed disc material to meet needs of readers and to have a built-in cushion in event some discs become worn or lost and the book has to be discarded.
- g. To encourage greater use of In-WATS telephone service to personalize service.
- h. To continue to provide one day service on circulation of materials.

II. Relationship to Long Range Program

The project supports Goal IV of the long range program:

To provide special programs of library service for visually and physically handicapped residents.

III. What the Project Expects to Accomplish

This project proposes to meet the library needs of eligible handicapped citizens in South Carolina by:

- 1. Processing and maintaining a collection of:
 - 36,000 Talking Books
 - 27,000 Cassette Books
 - 2,500 Large Print Books
- 2. Providing readers with current magazines by:
 - a. Registering them with any of 30 magazines mailed directly by publishers.
 - b. Processing and maintaining a collection of multiple copies of 30 magazines circulated by the library.
- 3. Circulating 110,000 books and magazines to more than 6,500 readers.
- 4. Stocking, financing, and supervising five browsing collections in county libraries available to handicapped users.

South Carolina State Library

5. Promoting and publicizing services by distributing brochures, airing TV and radio announcements on all TV stations and radio stations in the state in conjunction with a Library of Congress pilot public education program, appearing on radio and television talk shows, and meeting with as many state and local agencies as possible.
6. Coordinating all activities with Library of Congress, National Library Service for the Blind and Physically Handicapped.

IV. Needs Assessment

This project is necessary to meet the library needs of 95,849 South Carolinians who are unable to use conventional printed library materials. Library services for this segment of the population can only be met by this specialized service.

V. Who Is To Be Served

All blind and physically handicapped citizens of South Carolina who are unable to read conventional print because of their handicap are eligible for this library service. The Library of Congress, National Library Service for the Blind and Physically Handicapped estimates that 3.7% of the population is eligible for this service. In South Carolina that means 95,849 people are potential patrons. As of September 30, 1978, 5,535 were being served.

VI. Activities To Be Used To Meet Objectives and Needs

1. The South Carolina State Library, Division for the Blind and Physically Handicapped has been designated a regional library for the blind and physically handicapped by the Library of Congress. As such, the library will:
 - a. Provide books and magazines on disc, cassette tape, open reel tape and in large print to registered readers mainly by mail.
 - b. Issue equipment necessary to play recorded books.
 - c. Record books and magazines of local interest by volunteer narrators.
 - d. Provide catalogs and special bibliographies of materials available so readers can select books to read.

- e. Provide advisory service for readers who are unable to select for themselves or who would rather have the library select for them.
 - f. Provide assistance to students in the location of textbooks in special media.
 - g. Contract with North Carolina State Library for braille service.
2. The South Carolina State Library, Division for the Blind and Physically Handicapped will continue contracts with five county libraries to provide browsing collections and to promote service to the blind and physically handicapped locally. These libraries are:
- a. Anderson County Library
 - b. Charleston County Library
 - c. Greenville County Library
 - d. Richland County Public Library
 - e. Spartanburg County Library
3. To reach potential readers, a public relations campaign is conducted year round, consisting of:
- a. radio and TV public service spots and talk show appearances
 - b. newspaper articles
 - c. communication with public libraries
 - d. communication with health groups
 - e. communication with groups interested in the handicapped
4. To maintain communication between the library and the reader, the following are used:
- a. In-WATS telephone service
 - b. Quarterly Large Print newsletter
 - c. Individual correspondence

VII. When and Where Project Will Be Implemented

This project is an on-going project and will be continued during FY 79 and beyond. It will be implemented at the South Carolina State Library, Division for the Blind and Physically Handicapped, 718 South Edisto Avenue, Columbia, South Carolina 29205.

IX. Estimated Cost of and Sources of Funding

Basic funding will be from State appropriations which cover personnel, housing, and general operations of the Division. LSCA funds will be used to cover the cost of one pre-professional position, one tape technician position, large type books, tape duplication, In-WATS telephone service, and related expenses.

FY 79 funds budgeted for the project include:

<u>Federal</u>	<u>State</u>	<u>Total</u>
\$32,000*	\$108,679	\$140,679

*\$10,000 (est.) of this amount will be carried forward
for use in FY 80.

X. Method of Administering Project

Under the general supervision of the State Librarian, the project will be administered by the Director, Library Services for the Blind and Physically Handicapped.

- A. Library of Congress, National Library Service for the Blind and Physically Handicapped
- B. South Carolina Commission for the Blind
- C. North Carolina State Library
- D. Anderson County Library
- E. Charleston County Library
- F. Greenville County Library
- G. Richland County Public Library
- H. Spartanburg County Library

XI. Method of Evaluation

1. General. This project will be monitored by the Director, Library Services for the Blind and Physically Handicapped, the State Librarian, and consultants from Library of Congress, National Library Service for the Blind and Physically Handicapped. The major thrust of this project is the operation of a regional library for the blind and physically handicapped. Therefore there will be an almost continuous activity in evaluating the project.

Standards for this service are inadequate and outdated. Until such time as standards are adopted, the library will use the following as a guage for service:

Guidelines for Regional Libraries. Library of Congress, Division for the Blind and Physically Handicapped, 1977.

The following standards are expected to be adopted at the ALA Conference, 1979, at which time they will become the guideline for South Carolina's services:

Standards of Service for the Library of Congress Network of Libraries for the Blind and Physically Handicapped. Committee to Review Standards for the Blind and Physically Handicapped (ad hoc), ALA.

2. To judge effectiveness of publicity programs, the following will be used:
 - a. Number of new readers contacted
 - b. Number of readers referred by public libraries
 - c. Response from radio and newspaper coverage, such as:
 - (i) Inquiries about service
 - (ii) Requests for applications
3. The collection will be constantly evaluated to provide materials suitable for South Carolina readers. To do this will involve:
 - a. Selecting sufficient copies of Library of Congress produced books in areas that have proven to be popular, such as religion.
 - b. Weeding collection on a continuous basis to make room for more popular items.
 - c. Requesting searches from Library of Congress, National Library Service for the Blind and Physically Handicapped for location of titles possibly produced by other regional libraries that are requested by readers or that are needed to balance collection.
 - d. Recording of local materials.
 - e. Purchasing commercial material that would add balance to the collection.
4. To receive input from readers as to quality of service, the quarterly newsletter will be used to seek responses on what the readers want from their library.
5. Library and staff performance for FY 79 will be measured in terms of the specific objectives outlined in section I, item 5.

Project VII. Film Program

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

1. To provide an additional source of information for library users by building a collection of adult level 16mm motion picture films of cultural and entertainment value.
2. To supplement and to reinforce the resources of public and institutional libraries throughout the state, thereby enabling them to better meet the informational needs of their patrons.
3. To aid public and institutional libraries in the utilization of this film collection.

II. Relationship to Long Range Program

The Film Program Project supports the following goals of the Long Range Program:

- (IB) To provide a comprehensive collection of information and materials and in depth reference services supplementing the resources of public and institutional libraries.
- (IC) To centralize at state level programs and functions which cannot be handled economically or effectively by individual libraries.

III. What the Project Expects to Accomplish

This project provides public and state institutional libraries within the state with a collection of adult level 16mm motion picture films for library programs of educational and worthwhile entertainment value.

IV. Needs Assessment

No South Carolina public or institutional library can afford to acquire a collection of 16mm motion picture films which would adequately serve the needs of the patrons. A collection of 16mm films at the state level therefore prevents costly duplication of such resources and makes available to the public a far broader selection of films than any library could provide alone.

Title I
Project VII. Film Program

V. Who Is To Be Served

Films in the South Carolina Film Program will be available to public and institutional libraries which meet the requirements for participation in the program and which have signed an agreement with the State Library for film service. Libraries participating in the Film Program may borrow films for in-library activity and for library-sponsored programs held elsewhere. Films will not be available for use in elementary and secondary schools since materials purchased with federal funds supporting this program are specifically prohibited from being used by schools and other academic institutions serving a special clientele. Library films will not be shown where any admission fee is charged or donation requested nor may they be used commercially to attract trade. The films will only be available in South Carolina.

VI. Activities To Be Used To Meet Objectives and Needs

Activities will include, but not be limited to, the following:

1. Select, acquire, process, house and maintain a collection of 16mm motion picture films.
2. Maintain and update a central catalog of all State Library 16mm films.
3. Prepare an annual supplement to the 16mm film catalog to be distributed to public and institutional libraries participating in the State Library Film Program.
4. The State Library will sponsor film workshops or other training opportunities as needed for public and institutional libraries participating in the Film Program.
5. The State Library contracts with the Instructional Services Center, University of South Carolina to maintain and distribute this collection of 16mm motion picture films in order to avoid duplication of costly audio-visual equipment.
6. The Field Service Librarian for Audio-Visual Programs makes field trips throughout the state to help local public and state institutional librarians plan programs utilizing State Library films.

VII. When and Where Project Will Be Implemented

The project will be implemented in FY 79 at the South Carolina State Library.

IX. Estimated Cost of and Sources of Funding

This project provides for the purchase of 16mm motion picture films, the printing of a film catalog, and contractual cost to be paid to the University of South Carolina.

Funds budgeted for FY 79:

<u>Federal</u>	<u>State</u>	<u>Total</u>
\$55,000*	\$17,493	\$72,493

*\$20,000 (est.) of this amount will be carried forward
into FY 80.

X. Method of Administering Project

The Film Program will be administered by the State Library through contract with the Instructional Services Center, University of South Carolina, under the supervision of the Field Service Librarian for Audio-Visual Programs of the State Library. The State Library will maintain fiscal records for the programs and provide overall supervision.

XI. Method of Evaluation

This program will be monitored continuously by the Deputy Librarian and the Field Service Librarian for Audio-Visual Programs. Field visits throughout the state will be made by the Field Service Librarian for Audio-Visual Programs to aid individual public and institutional libraries to plan use of the film collection. Quarterly reports will be submitted by public and state institutional libraries participating in the program and will include statistics vital to the evaluation of the Film Program. The success of the Film Program will be reflected by the cooperation of South Carolina public and state institutional libraries participating in the program together with public response to their participation.

Project VIII. Service to Persons of

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

- A. To help libraries better serve persons who because of limited English-speaking ability cannot take advantage of the opportunities offered by the public library for recreation and education.
- B. To carry out the LSCA priority mandated by the Education amendments of 1974, which call for service to be directed toward:
 1. Individuals who were not born in the United States or whose native language is a language other than English, or
 2. Individuals who come from environments where a language other than English is dominant and, who, by reason thereof, have difficulty reading and understanding the English language.

II. Relationship to Long Range Program

This project supports Goal II-C-4 of the long range program:

To plan, test, and develop means of extending public library service to persons of limited English-speaking ability who by reasons thereof have difficulty utilizing established library services.

III. What the Project Expects to Accomplish

This project will enable South Carolina to begin building one substantial collection of materials for those of limited English-speaking ability and, through interlibrary loan, make these materials available to persons throughout the state.

IV. Needs Assessment

A needs assessment conducted in early 1975 revealed no high concentrations of non-English speaking persons in South Carolina but only various small scattered groups with different levels of need for library service. The needs assessment quoted the 1970 census, which showed the following figures: 14,364 persons who were foreign born, 35,436 persons of foreign or mixed parentage, and 10,999 persons of Spanish language. Even these low figures

C. The Charleston County Library in accepting the grant will agree:

- (1) to make the materials acquired with project funds available to other public libraries through inter-library loan
- (2) to begin actively promoting the project among other libraries no later than one year after its project is approved

D. As appropriate, the Charleston County Library will involve other local agencies in the planning and carrying out of the project.

E. The State Library and the Charleston County Library together will develop and carry out a publicity plan for the project. This will be aimed at the other public libraries of the state as well as persons of limited English-speaking ability.

F. After the receipt of the materials ordered for the project, the Charleston County Library will prepare and make available to the other public libraries a listing of the materials. This list may either be printed or microfilmed.

VII. When and Where Project Will Be Implemented

The project will be implemented during Fiscal Year 1979 at the Charleston County Library.

VIII. Key Libraries and Other Libraries Involved

The key library will be the Charleston County Library, the recipient of the grant. The other public libraries of the state (38 systems) will be eligible to borrow Charleston's materials for the limited English speaking through interlibrary loan.

IX. Estimated Cost of and Sources of Funding

The estimated cost of the project is \$10,000. The project will be funded from Fiscal Year 1979 ISCA Title I funds.

are misleading, however: many of the people listed speak English, including the 9,115 whose country of origin is the United Kingdom or Ireland; and some of the Spanish speaking have probably been counted more than once.

South Carolina's experience with its pilot projects for those of limited English-speaking ability the past three years has confirmed the 1975 needs assessment: many public libraries in the state have a few users of limited English-speaking ability, but no library has a large number. Because the number of potential users is small, the public libraries have been reluctant to make this type of library service a high priority. They believe they could adequately serve the small number of non-English-speaking if there were available to them one central collection of materials which could be borrowed through interlibrary loan.

The Charleston County Library, which is willing to attempt to build such a collection, has one of the largest populations of limited English-speaking in the state. This library, which includes in its service area a port city with a sizable military population, has, according to the 1970 census, 6,430 persons of foreign stock. The Charleston County Library has reported that it regularly gets a few requests for foreign-language materials. Charleston's pilot project for the limited English speaking has been one of the most successful in reaching users.

V. Who Is To Be Served

Persons of limited English-speaking ability throughout the state will be served by the project. Persons in Charleston County will be able to borrow materials directly; those in other counties can obtain materials through interlibrary loan.

VI. Activities To Be Used To Meet Objectives and Needs

- A. The State Library will offer a grant of \$10,000 to the Charleston County Library to expand its collection of materials for those of limited English speaking ability.
- B. The Charleston County Library will submit a budget and description of its proposed project. Grant funds may be used for materials, for shelving for the materials, for the costs involved in mailing the materials to other libraries, and for producing some kind of list (print or microfilm) of the collection.

X. Method of Administering Project

The Director of the Charleston County Library or her Deputy will be responsible for the administration of the project, including the financial records and reports to the State Library.

XI. Method of Evaluation

- A. The project will be monitored by the State Library Field Services staff by means of field visits and conferences with the Charleston library staff.
- B. At the end of the year the Charleston County Library will prepare a narrative and evaluative report on the project. Areas to be covered in the report will include but not be limited to the following:
 - 1. Number and types of materials added through the project.
 - 2. An estimate of the number and types (languages, nationalities, etc.) of persons reached.
 - 3. Number and types of materials loaned to other libraries.
 - 4. Type and amount of cooperation with other libraries and with non-library agencies.
 - 5. Publicity given the project.
 - 6. Any other information indicating the project extended library service to the target group.

Project I. Interlibrary Network

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

The objectives of the Interlibrary Network Project are:

- A. To provide better service to South Carolinians by improving access to library resources of the state, region, and nation.
- B. To facilitate the sharing of South Carolina library resources by means of a rapid communication system for the location of information and materials.
- C. To raise the level of reference and interlibrary loan service through in-service training for reference personnel.
- D. To strengthen the services of the State Library so that it may adequately serve as a resource center for all libraries in the state.
- E. To provide access to the Educational Resources Information Center (ERIC) document collection.
- F. To encourage cooperation among public, academic, and institutional libraries of South Carolina.

II. Relationship to Long Range Program

The project supports Goals V and IC of the Long Range Program:

V. To facilitate optimum utilization of South Carolina's total library resources by means of cooperation and reciprocal activities among libraries of all types and at all levels.

IC. To centralize at State level programs and functions which cannot be handled economically or effectively by individual libraries.

III. What the Project Expects to Accomplish

The project will provide rapid access to statewide resources, increase interlibrary cooperation, and result in more efficient use of all library resources. It provides the central organization, communications, and bibliographic access necessary for an effective interlibrary loan program. Requests for information and/or materials not available at one library may immediately be transmitted to another, with the State Library at the center of the South Carolina Interlibrary Network.

IV. Needs Assessment

Measured by either state or national standards, South Carolina's library resources are inadequate to meet user needs, present or potential. Public libraries have less than 1.5 books per capita. Institutional libraries are limited in depth and breadth of holdings. Academic libraries do not have adequate resources for burgeoning student bodies. The sharing of resources is the only economical and effective means of meeting the demands for service. This project provides the conduit for this resource sharing.

V. Who Is To Be Served

Rapid provision of information and materials not available at the local level is of potential benefit to all South Carolinians. The Interlibrary Network permits all library users to draw upon the resources of (1) the State Library, (2) other public, academic, or institutional libraries, or (3) out-of-state libraries.

VI. Activities To Be Used To Meet Objectives and Needs

The Interlibrary Network Project encompasses a variety of activities having common goals. These activities fall into five categories:

A. Communications - to promote cooperation and to facilitate interlibrary loans

1. In-WATS telephone service - connecting all public and out-of-town institutional libraries with the State Library
2. TWX - connecting the State Library with the three Area Reference Resource Centers, major state universities and out-of-state libraries
3. News for South Carolina Librarians - fostering communication among all public, college, university, institutional, and special libraries within the state

B. Bibliographic Access - to identify and locate library resources

1. Microfilm edition of State Library Catalog - reissued every three years with annual supplements; provided to county and regional libraries and to selected university and institutional libraries as a means of identifying materials for interlibrary loan.

2. SOLINET (Southeastern Library Network) - on-line bibliographic information and location capabilities supplement the South Carolina Interlibrary Loan Network, functioning as an effective union catalog of major S.C. library collections and providing access to materials anywhere in the SOLINET-OC LC network.
 3. Machine assisted reference service - the State Library will continue to investigate the feasibility of supplementing reference service through the use of on-line computerized bibliographic services.
- C. Interlibrary Loan - to supplement and coordinate library resources
1. State Library staff gives direct interlibrary loan service to public, institutional and special libraries
 2. The State Library is the communications center through which loans between different types of libraries are transmitted. Requests from college and university libraries are channeled through and screened by the University of South Carolina.
- D. In-Service Training - to raise the level of reference and interlibrary loan service throughout the state
1. Workshops - The State Library periodically sponsors statewide or regional workshops for reference personnel dealing with information resources, reference skills and techniques, interlibrary cooperation, and other matters pertaining to reference and interlibrary loan service.
 2. Field Work - The reference and interlibrary loan staff makes field trips, as needed, to South Carolina libraries for the purpose of identifying local needs and problems, providing instruction, and encouraging more effective use of reference and interlibrary loan service.
- E. Study and Planning - to encourage cooperative planning among all types of South Carolina libraries
1. Investigation - The State Library will initiate preliminary conferences and planning meetings to allow South Carolina librarians to discuss and investigate potential means of cooperation including resource sharing, networking, and technological applications. If necessary, study trips may be made to observe successful multi-type library cooperation in other states and to determine the possibility of replication in South Carolina.

Title III
Project I. Interlibrary Network

2. Consultation - When a need is indicated, the State Library will engage consultants to study the feasibility of various cooperative activities and to advise on the development of a coordinated plan of action. A possible area of investigation in FY 79 is library automation applications in order to determine at what stage of development automation becomes practical and economical in acquisitions, cataloging, and circulation; to what degree it can strengthen the interlibrary loan network; and how individual libraries or groups of libraries can best implement compatible automation systems.
3. Demonstration - Where investigation and consultation indicate that a given activity or technology can substantially improve communications, streamline library procedures, or facilitate delivery of service, the State Library may offer a demonstration grant to aid in establishing a cooperative project that crosses type of library lines. The objective would be to find the best ways to fill the information and library needs in the State, to show clearly how each party benefits from cooperation, and to show ways of maximizing the expenditure of state and federal funds.

In FY 79, the State Library will investigate the feasibility of establishing SOLINET clusters to serve multi-type libraries. Such clusters will increase the number of South Carolina libraries participating in SOLINET and will enable the State Library to extend the capabilities of the interlibrary network by drawing upon the holdings of these libraries which previously have been unavailable.

VII. When and Where Project Will Be Implemented

The project will be implemented in FY 79 at the South Carolina State Library.

IX. Estimated Cost of and Sources of Funding

State and LSCA Title I funds provide the materials used by the State Library in the interlibrary loan program (see Project IIB. Strengthening the State Library Agency). State funds provide the professional and pre-professional personnel to operate the program. LSCA Title II funds are expended for communications (postage, telephone, TWX, and SOLINET), some clerical personnel, equipment, supplies, microfilming of catalog, and travel attributable to the Interlibrary Network.

FY 79 funds budgeted:

<u>Federal</u>	<u>State</u>	<u>Total</u>
\$27,804	\$44,532	\$72,336

Estimated LSCA FY 79 funds expended in FY 79: \$12,804

Estimated LSCA FY 79 funds carried forward to FY 80: \$15,000

X. Method of Administering Project

The project is administered by the State Library. General supervision rests with the Director of Reader Services and day-to-day operations are the responsibility of the Interlibrary Loan Librarian. SOLINET communications are provided through contract with the Southeastern Library Network and monitored by the Technical Services Librarian.

XI. Method of Evaluation

The total project will be supervised by the Director of Reader Services, with participation of the State Librarian and Deputy Librarian in all planning activities. Many of the results of the project are "intangibles" - leading to improved communication and cooperation between all types of libraries. Specific accomplishments will be measured in terms of the number of libraries involved in planning and activities, the consensus reached concerning immediate and long-range goals, and the development of demonstration projects for prototype activities.

The interlibrary loan phase of the project will be constantly monitored by the Interlibrary Loan Librarian, who supervises the filling of all reference and title requests, and by designated

members of the State Library staff. Interlibrary loan statistics will provide a major source for evaluation of this service. Success of the service will be measured in terms of:

- (1) the number of interlibrary loan transactions
- (2) the percentage of requests filled
- (3) the time required for filling patron requests
- (4) critiques by librarians and patrons

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

The objectives of the Area Reference Resource Centers Project are:

1. To raise the level of reference service for residents of a multi-county area.
2. To develop special reference services for business, industry, and government.
3. To promote interlibrary cooperation.

II. Relationship to Long Range Program

The ARRC project supports Goals VB and VB1 of the Long-Range Program:

VB. To establish and maintain a system of Area Reference Centers which will provide an improved level of reference service for all residents.

VB1. To develop and promote special reference services for business, industry, and government.

III. What the Project Expects to Accomplish

The Standards for South Carolina Public Libraries call for the establishment of five or six Area Reference Resource Centers having strong reference and research collections and located within one-half day's round trip of any citizen of the state. The intent of the standard was to coordinate library services of an area and to permit the optimum utilization of all resources by any library user. This project is a step toward implementation of this standard and is carried out to test the feasibility of the concept and to demonstrate methods by which it may be achieved.

IV. Needs Assessment

No South Carolina library has adequate resources to meet all the needs of its patrons. This is especially true in the areas of information and reference service which require expensive publications and specialized tools. The only means of providing a reasonable level of service is for libraries to share resources and to cooperate in planning, acquisitions, and programming. The ARRC supplements the statewide Interlibrary Network by improving service at the local level and giving the user access to the total library resources of his area.

V. Who Is To Be Served

The Greenville ARRC will serve the population of a seven-county area in northwest South Carolina.

The Florence ARRC will serve the population of an eight-county area in the Pee Dee (eastern) region of South Carolina.

VI. Activities To Be Used To Meet Objectives and Needs

Activities for FY 79 will include the following:

A. The State Library will:

1. Make grants-in-aid to the Greenville County Library and the Florence County Library to operate Area Reference Resource Centers.
2. Monitor ARRC activities by:
 - a. Participation in ARRC Advisory Councils.
 - b. Regular field visits to assist and observe the work of the Regional Reference Librarians.

B. The Greenville Area Reference Resource Center, in the sixth year of operations, will:

1. Hold quarterly meetings of the ARRC Advisory Council to advise and assist in the development of the program.
2. Provide a Regional Reference Librarian who will work to raise the level of library service throughout the area by assisting library administrators in collection development, staff training, and improving access to resources.
3. Provide reference materials and research assistance to adult patrons referred to it by libraries in the area.
4. Promote service to business, industry and government by advising librarians of resources and services needed, making direct contacts with representatives of business and industry, and publicizing services through the news media and publication of Information for Leaders.

5. Stimulate library use by a planned program of publicity and public relations.
- C. The Florence Area Reference Resource Center, in the third year of operation, will:
1. Hold quarterly meetings of the ARRC Advisory Council to advise and assist in the development of the program.
 2. Provide a Regional Reference Librarian who will work to raise the level of library service throughout the area by assisting library administrators in collection development, staff training, and improving access to resources.
 3. Provide reference materials and research assistance to adult patrons referred to it by libraries in the area.
 4. Implement such programs and activities as may be justified by need and approved by the Advisory Council and State Library.

VII. When and Where Project Will Be Implemented

The Area Reference Resource Center Project will be implemented in FY 79 by the Greenville County Library in the seven county area of northwestern (primarily Appalachian) South Carolina and by the Florence County Library in the eight county Pee Dee (eastern) area.

IX. Estimated Cost of and Sources of Funding

Florence: The LSCA grant provides salaries of the Regional Reference Librarian and some secretarial help, promotion and printing, travel and communication costs, and other expenses approved by the Advisory Council within LSCA guidelines for Title III.

Greenville: In FY 79, the LSCA grant will provide the salaries of the Regional Reference Librarian and a clerical assistant; but the funds for financing the general operations and special projects of the Greenville program will be partially assumed by the participating county libraries. This support will consist of an annual contribution on a per capita basis set by the Advisory Council, the per capita assessment for each county library for FY 79 being 1¢. FY 78 will be the final year for LSCA support of the Greenville ARRC.

The Florence and Greenville County Libraries will continue to provide space and equipment for the Regional Reference Librarians and supporting services. Both grantee libraries will also receive supplementary grants for materials under the Metropolitan Libraries Project (Title I).

LSCA Title III funds budgeted for FY 79 include FY 78 carry-over, and FY 79.

	<u>Federal</u>	<u>Local</u>	<u>Total</u>
FY 78	\$ 5,000	-0-	\$ 5,000
FY 79	<u>44,600</u>	<u>\$10,000</u>	<u>54,600</u>
Total	\$49,600	\$10,000	\$59,600

X. Method of Administering Project

The projects will be administered under contracts between the State Library and grantee libraries (see attached copy). From the state level they will be supervised by the Deputy Librarian and the Field Service Librarians assigned to the grantees. At the local level, they will be supervised by the librarians of the grantee libraries and by Advisory Councils made up of librarians representing the various types of libraries in the area.

XI. Method of Evaluation

The Regional Reference Librarians prepare an annual budget and plan of activities which is submitted for consideration and approval by the ARRC Librarian, the State Library, and the Advisory Council. Field trip reports and monthly reports on activities are prepared. The Advisory Councils meet quarterly to review the program and to recommend future goals and activities. The success of the project is evaluated by the Advisory Council on the basis of the assistance provided to the local county libraries and to other libraries in the area in improving reference services.

SECTION C. DESCRIPTION OF PROJECT

I. Objectives

The purpose of this project is to plan and hold the South Carolina Governor's Conference on Library and Information Services, scheduled for March 15 - 17, 1979, which has as its objectives:

1. To identify the extent to which library and information services in the state meet the current needs of South Carolina citizens.
2. To determine what library and information services must be developed to meet future needs and to set goals for action.
3. To encourage support of libraries by making state and local officials, lay leaders, and citizens, aware of the role libraries and information centers play in the educational, economic, and cultural development of the state.
4. To prepare citizens for participation in the White House Conference on Library and Information Services.

II. Relationship to Long Range Program

The project supports Goal VG of the Long Range Program: To plan and carryout a state conference on libraries and information services in order to inform citizens of the status and needs of libraries, to produce goals for library development in the state, to prepare for the White House Conference on Library and Information Services, and to enlist lay leadership in the state to plan for library development.

III. What the Project Expects to Accomplish

The Governor's Conference on Library and Information Services is intended to strengthen and broaden the total library program of South Carolina by involving citizens and leaders in the assessment of needs and the development of plans for library and information services. It should focus public attention on the role libraries play in meeting the informational needs of our citizens and in the educational and cultural development of the state. It is hoped that it will make the public as well as local and state officials aware of the value of libraries and of the necessity for providing legal and financial support to make those services possible. The conference should result in greater use of libraries and information resources as people become more aware of the facilities and services available.

Project IV. Pre-White House Conference

IV. Needs Assessment

The U.S. Congress has authorized a White House Conference on Library and Information Services, to be held October 28-November 3, 1979, for the purposes of examining the status of library and information services today and developing plans to improve the capacity of libraries to serve the people. Each state and territory is mandated to hold its own conference in preparation for the national meeting.

In a population of 2½ million, only about 21 percent of South Carolinians are regular library users. Many non-users are unaware either of library services generally or of potential benefits for them personally. At the same time, financial support for all South Carolina libraries is low. Limited resources do not permit them to reach out to all the unserved or to adequately serve present users. Both the public and officials responsible for funding need to be informed about the value of library services.

V. Who Is To Be Served

Some 450 citizens and librarians will be involved in the Governor's Conference directly as delegates or observers. Several thousand will participate in the planning process and in the ten regional conferences which will proceed the Governor's Conference. However, the entire population of the state will benefit to the degree that the Conference assists in the development of adequate library services to meet the needs of the people. By making state legislators and local officials aware of the educational, informational, and recreational value of libraries, a better level of support may be obtained. By making more people aware of library services, a greater proportion of the public is likely to avail themselves of those services.

VI. Activities To Be Used To Meet Objectives and Needs

The activities centered around the Governor's Conference on Library and Information Services will include, among others:

1. The work of an Advisory Committee, representative of the state's population and the library profession, responsible for planning, coordinating, and evaluating the conference.
2. The work of eight Resource Committees responsible for collecting information, developing materials, and planning the conference program.

Project IV. Pre-White House Conference

3. A year long program of publicity and promotion designed to prepare for the conference specifically and to increase public awareness of libraries generally.
4. Ten regional meetings preceding the Conference for the purpose of informing delegates about libraries and for allowing larger numbers of citizens to participate in the needs assessment and planning.
5. A 2½ day state conference in which 200 citizens, 100 librarians or trustees, and 150 observers review the status of libraries, determine the needs of the public, and plan actions necessary to meet those needs.
6. Follow-up activities including the completion of recommendations to state officials and to the White House Conference on future library developments, preparation and distribution of conference reports, and participation of nine South Carolina delegates in the White House Conference.
7. Incorporation of the goals and plans developed by the conference into the State Library's Long Range program and into the legislative program of the State Library and the South Carolina Library Association.

VII. When and Where Project Will Be Implemented

The preparations for the conference will be carried out throughout 1978-79 with the conference itself to be held March 15-17, 1979, at The Carolina Inn in Columbia, South Carolina.

VIII. Key Libraries and Other Libraries Involved

The conference, including preparation and follow-up, will involve every library of South Carolina, public and private.

IX. Estimated Cost of and Sources of Funding

The Governor's Conference is funded primarily by a grant from NCLIS and by FY 78 LSCA appropriations. FY 79 LSCA funds are budgeted to cover unforeseen contingencies and the expenses of alternates to the national conference.

Title III
Project IV. Pre-White House Conference

X. Method of Administering Project

The South Carolina State Library is responsible for planning and carrying out the Governor's Conference within the guidelines laid down by the National Commission on Libraries and Information Science. The Deputy Librarian will serve as Conference Coordinator, a member of the Field Staff as Assistant Coordinator, and a member of the State Library staff serves on each of the eight committees responsible for developing the conference program. Financial and other records will be maintained by the State Library in accordance with usual practice.

XI Method of Evaluation

The Advisory Committee will be responsible for monitoring conference planning and for evaluating its results. The committee will meet quarterly to review progress to date and to revise plans and directives as needed. The results of the conference will be measured in terms of the number of citizens and professionals involved in planning, participation, or implementation; in terms of the recommendations and findings developed by the conference; and especially in terms of the implementation of recommendations and the effects upon legislation, funding, and services.
